About Me

As an undergraduate student in Data Science and Artificial Intelligence, I am passionate about building real-world AI solutions. I have hands-on experience in Computer Vision, Machine Learning, and Retrieval-Augmented Generation (RAG). With a strong foundation in image classification, pose tracking, and NLP, I am eager to further develop my skills through practical projects. I am actively seeking an internship opportunity in Data Science & AI, where I can learn, contribute, and grow in a collaborative and dynamic environment.

Education & Experience

	Dai Mo High School , High School Student GPA: 8.3/10	Ha Noi, Viet Nam 2020–2023
BSc	University of Science and Technology of Ha Noi , Data Science - GPA: 16.76/20 in 1st year 17.75/20 in 2nd year - Awards: USTH Merit Scholarship 2023 – 2024: A4 (40% of Tuition Fees) USTH Merit Scholarship 2024 – 2025: A2 (80% of Tuition Fees) - Relevant Coursework: Calculus, Linear Algebra, Probability & Statistics, Data Structures and Algorithms, Machine Learning, Deep Learning, Artificial Intelligence.	Ha Noi, Viet Nam Sept 2023 – present
	CMC ATI , AI Research Intern - Researched and developed advanced computer vision models for real-world applications, focusing on accuracy and inference speed optimization. - Implemented and fine-tuned deep learning models for complex human pose estimation and tracking tasks. - Collaborated with the research team to evaluate state-of-the-art algorithms and integrate them into the company's AI pipeline.	Ha Noi, Viet Nam Mar 2026 – June 2026
	USTH Artificial Intelligence Club , Club President - Led the club's professional team in planning and executing AI-focused extracurricular activities, technical workshops, and seminars. - Mentored junior members on fundamental AI/ML concepts, providing guidance for hands-on project development and hackathon preparation. - Fostered a collaborative community of AI enthusiasts by organizing study groups, coding challenges, and knowledge-sharing sessions.	Ha Noi, Viet Nam July 2026 – present

Projects

[USTH Chatbot – Agentic RAG System \(Leader\)](#)

An AI question-answering system for USTH students that provides answers strictly grounded in internal PDF documents.

- Designed and implemented a full Retrieval-Augmented Generation (RAG) pipeline
- Strong focus on grounded answers to reduce hallucinations

[Facebook Chatbot RAG](#)

A Retrieval-Augmented Generation chatbot integrated with Facebook Messenger for contextual conversations.

- Built a RAG pipeline with retrieval from knowledge base
- Integrated with Facebook Messenger API for real-time interactions

[Hateco AI Chatbot](#)

An AI chatbot plugin developed for HATECO.

- Built an AI chatbot plugin tailored for HATECO's ecosystem.

[Biodiversity](#)

Project focused on analyzing and exploring biodiversity.

- Developed a project centered on biodiversity.

[U-Pose-3D SAM3D](#)

A 3D pose estimation project leveraging SAM3D for accurate human pose tracking.

- Implemented 3D pose estimation using SAM3D
- Worked on 3D human pose tracking and reconstruction

[Face Recognition Attendance System](#)

Face recognition attendance system utilizing K-Nearest Neighbors and Support Vector Machines.

- Built an automated attendance system using KNN and SVM for face recognition.

[Vietnam Traffic Signs Classification](#)

Classification of Vietnam traffic signs.

- Implemented a classification model tailored for Vietnam traffic signs.

Publications

[Development of a Beam Structural Analysis Tool for University Teaching](#)

Research on developing a beam structural analysis tool using MATLAB GUI, published in the Construction Journal.

- Developed an intuitive tool to support teaching Mechanics of Materials and Structural Mechanics.
- Optimized displacement calculation and internal force diagram plotting, with results validated against SAP2000.

SKILLS

Technical Skills

- Programming Languages: Python, C, SQL, Java
- Frameworks & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Streamlit, Langchain
- Platforms & Tools: Git, MySQL, Jupyter Notebook, VS Code

Soft Skills

- Team Collaboration & Communication, Leadership
- Analytical & Critical Thinking
- Adaptability, Self-learning & Time Management

Languages

- English B2, French A2 (Delf A2)

Activities and Awards

Awarded Third Prize in the NYC Taxi Trip Hackathon Competition at UAI	2024-2025
Received a Certificate of Excellence for outstanding performance in Youth Union activities	2024-2025
Participate in Swin Hackathon 2026 and Datathon 2026 VinUniversity	2026
