About Me

As an undergraduate student in Data Science and Artificial Intelligence, I am passionate about building real-world AI solutions. I have hands-on experience in Computer Vision, Machine Learning, and Retrieval-Augmented Generation (RAG). With a strong foundation in image classification, pose tracking, and NLP, I am eager to further develop my skills through practical projects. I am highly motivated to pursue an exchange opportunity in Data Science & AI, where I can learn, contribute, and grow in a collaborative and dynamic environment. I also look forward to engaging in international experiences to broaden my perspective and work with diverse teams.

Education & Experience

BSc	University of Science and Technology of Ha Noi , Data Science	Ha Noi, Viet Nam
	- GPA: 16.76/20 in 1st year 17.75/20 in 2nd year - Awards:	Sept 2023 – present
	USTH Merit Scholarship 2023 – 2024: A4 (40% of Tuition Fees)	
	USTH Merit Scholarship 2024 – 2025: A2 (80% of Tuition Fees)	
	CMC ATI , AI Research Intern	Ha Noi, Viet Nam
	- Develop and optimize computer vision models for real-world applications. - Work on pose estimation tasks.	Mar 2026 – June 2026
	USTH Artificial Intelligence Club , Club President	Ha Noi, Viet Nam
	- Led the professional team in organizing AI-focused activities and technical workshops - Mentored members on AI/ML concepts and project development	July 2026 – present

Projects

[USTH Chatbot – Agentic RAG System](#)

An AI question-answering system for USTH students that provides answers strictly grounded in internal PDF documents.

- Designed and implemented a full Retrieval-Augmented Generation (RAG) pipeline
- Strong focus on grounded answers to reduce hallucinations

[Facebook Chatbot RAG](#)

A Retrieval-Augmented Generation chatbot integrated with Facebook Messenger for contextual conversations.

- Built a RAG pipeline with retrieval from knowledge base.
- Integrated with Facebook Messenger API for real-time interactions.

[Biodiversity](#)

Project focused on analyzing and exploring biodiversity.

- Developed a project centered on biodiversity.

[Face Recognition Attendance System](#)

Face recognition attendance system utilizing K-Nearest Neighbors and Support Vector Machines.

- Built an automated attendance system using KNN and SVM for face recognition.

[Vietnam Traffic Signs Classification](#)

Classification of Vietnam traffic signs.

- Implemented a classification model tailored for Vietnam traffic signs.

[U-Pose-3D SAM3D](#)

A 3D pose estimation project leveraging SAM3D for accurate human pose tracking.

- Implemented 3D pose estimation using SAM3D.
- Worked on 3D human pose tracking and reconstruction.

[Hateco AI Chatbot](#)

An AI chatbot plugin developed for HATECO.

- Built an AI chatbot plugin tailored for HATECO's ecosystem.

[THPT 2026 Data Analysis](#)

Data analysis of the 2026 THPT national high school examination.

- Conducted comprehensive data analysis and visualization on the 2026 THPT exam dataset.

Skills

Technical Skills

- Programming Languages: Python, C, SQL, Java
- Frameworks & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib, Streamlit, Langchain
- Platforms & Tools: Git, MySQL, Jupyter Notebook, VS Code

Soft Skills

- Team Collaboration & Communication, Leadership
- Analytical & Critical Thinking
- Adaptability, Self-learning & Time Management

Languages

- English B2, French A2 (Delf A2)

Activities

Academic & Competitions

- Awarded Third Prize in the NYC Taxi Trip Hackathon Competition at UAI
- Received a Certificate of Excellence for outstanding performance in Youth Union activities (Academic Year 2024–2025)

Clubs

- Member of M&M Not Chocobears Music Club (since 2024)

Arts & Performance

- Performed at the Sota Gala night music show.
- Won Second Prize in Shine Your Star 2025

Other Activities

- Participated in 15km race at URACE 2024
- Participated in a relay running event 2025
- Participated in the blood donation campaign “Ngày hồng USTH lần V”
